Control flasks  
Bioreactor

STIMULUS

# Effect of Frequent Medium Exchange on Function of Dendritic Cells Derived at Low, Intermediate or High Inoculum Densities

L w in culum density

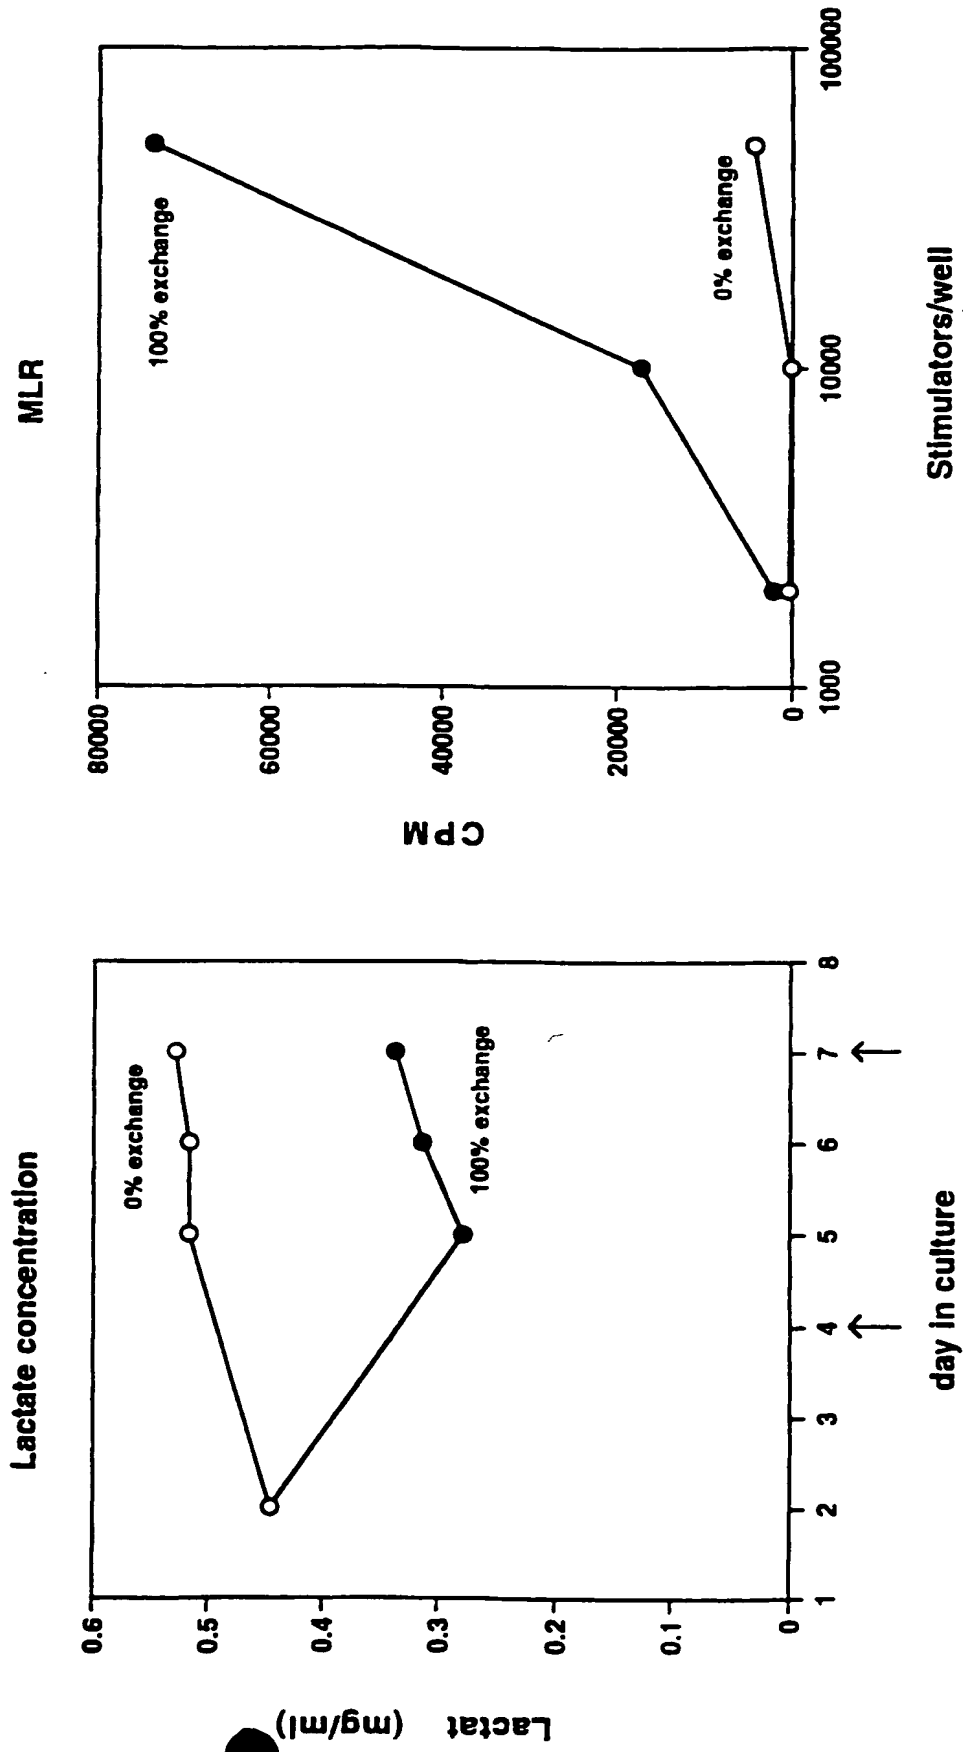

Fig. 2

# Effect of frequent medium exchange on function of dendritic cells Divided at Low, Intermediate or High Inoculum Densities

Intermediate in culum density

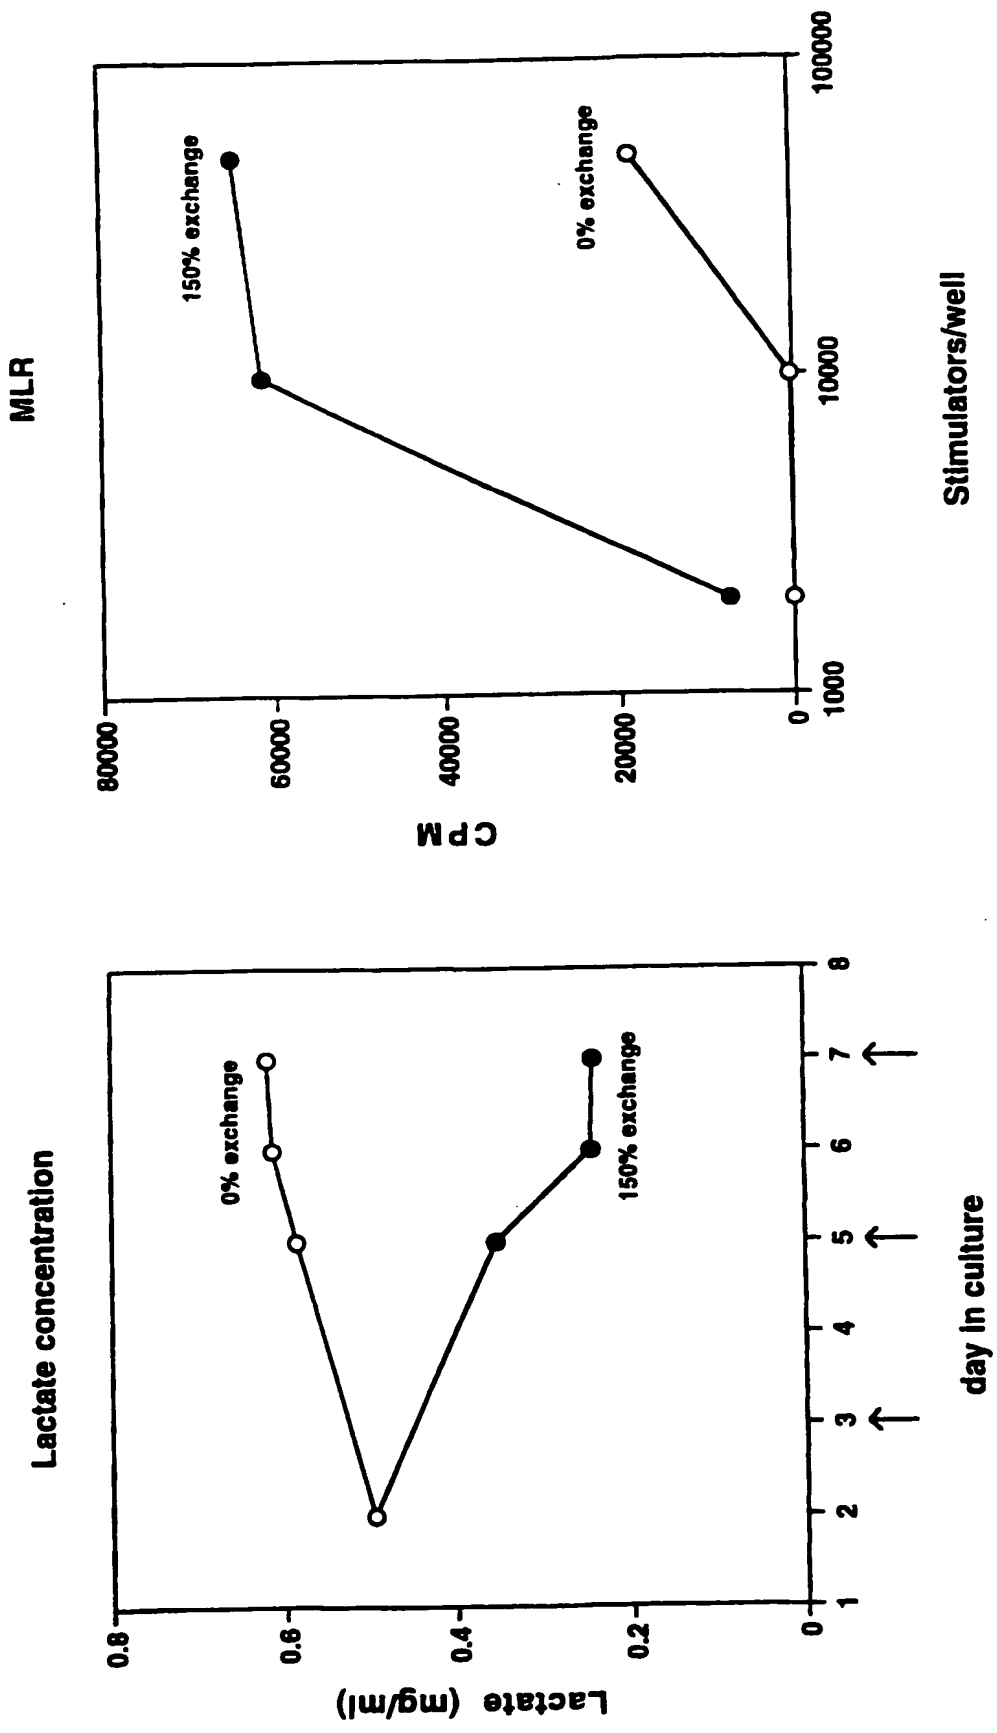

Fig. 3

# Effect of different medium lactate on function of dendritic cells Div d at Low, Intermediate or High inoculum Density

High In culum density
